

30 November 2017

Japan Airport Terminal Co., Ltd.

Tokyo International Air Terminal Corporation

## TIAT to Exhibit at EcoPro 2017

In Search of Eco-Action at Haneda Airport -A Learning Adventure in an Eco-Airport with 6 Eco Warriors-

Tokyo International Air Terminal Corporation and Japan Airport Terminal Co., Ltd. will have a booth at EcoPro 2017, an exhibition of the future of the environment and energy to be held at Tokyo Big Sight over three days from December 7 (Thu) through December 9 (Sat).

There are a variety of initiatives in place at Haneda Airport aimed at realizing an environment-friendly eco-airport. The booth will feature specific examples of the environmental activities at Haneda.

This year, the booth will offer active participation where adults and children can have fun learning about the difficult subject of eco-airport initiatives with easy-to-understand commentary from environment-themed characters. Visitors will become adventurers on a quest to become Eco Warriors protecting the planet, and embark on a journey in search of the environmental initiatives at Haneda Airport. Adventurers will be assisted by the 6 Eco Warriors, Solar, Light, Water, Heat, Green and Bio. Participants will be given promotional items if they answer later quizzes. They will also be given eco-action cards which can be used at home.

We look forward to seeing you there and sharing Haneda Airport's eco-initiatives with you.
